**New York Tribune:** Mr. Cleveland declines a nomination? Why should he? He suits the Democratic party. It is for free trade and he is for free trade, and to aid free trade he has brought the business and manufactures of the land under a cloud by opening a free-trade agitation with his message. The party believes in using public office as party rewards, and he believes in the same thing and practices it. Southern Democrats want pensions for the South, and Cleveland signed the Mexican pension bill giving service pensions to every man who had served in that war, whether in want or not, and vetoed the dependent pension bill giving a pension only to those who had served in the last war who were in want. Lastly, the party wants the show of reform for the country and public patronage for itself, and Cleveland gives that. A free-trade message, 55,000 offices, and Mexican pensions are arguments enough to make the Democratic party nominate Cleveland. Besides, who else have they?

**CONGRESSMAN MCSHANE** of Nebraska makes the novel objection to the admission of Dakota as one State that it will eventually overshadow Nebraska and other States of average size and become dangerous to them and the peace of the Union in times of civil disturbance and in Presidential elections. Mr. McShane has never, perhaps, learned that California has over 80,000 square miles of territory more than Dakota, and that Texas is something like 90,000 square miles larger. Aside from this actual difference in size, there is relatively a much greater disproportion. Texas and California are capable of supporting a far denser population than Dakota, yet Ohio, Pennsylvania and Massachusetts are not afraid of being overshadowed. Mr. McShane has puzzled his wife to a considerable extent in order to make himself ridiculous.

**THE CANADIANS** are very liberal in their trade propositions. They offer reciprocity with the United States on a long list of articles, but examination of the list shows that it consists of hardy grains, and fish, lumber and mineral products, in which the trade would be all export from the Dominion. They want us to open our market to them, but offer little or nothing in return. Congress will have to watch the administration to prevent it from giving us away to our neighbors.

It is reported that a Japanese has discovered a process of lacquering ships' bottoms which protect them from marine growths, and that an experiment of a year and a half in duration has been a complete success. If so, that Jap has a fortune in prospect. The most troublesome thing about steel and iron ships is their affinity for grasses and barnacles, etc. Many iron ships of war have been sheathed outside with wood to permit of coppering them and thus avoid fouling and loss of speed.

**PANAMA CANAL** shares are booming on the French Bourse, and De Lesseps is likely to get the desired lottery privilege and the money to complete his work on time. Operations on the Nicaragua Canal are also going ahead in earnest, and in a few years a wholesome competition in inter-oceanic travel will cheapen and facilitate the trade of San Francisco with the East and Europe.

**REPRESENTATIVE MORROW'S** resolution calling for our good offices in putting Samoan affairs on a better basis is well-timed. All the evidence goes to show that the Germans have acted there in a high-handed manner, and the aggressive spirit lately shown by Germany warrants the belief that she aims at the permanent acquisition of the islands to the injury of American interests.

**Instructed for Gresham.**  
Chicago, April 25.—The Republicans of the Third Congressional District this morning selected Mayor Roche and Leonard Sweet as delegates to the National Convention. The delegates, amid great enthusiasm, were instructed to support the candidacy of Judge Gresham. It is understood that Sweet is to present Judge Gresham's name to the Convention.

# OVER THE WIRES.

EMPEROR FREDERICK.

His Condition Improved—Queen Victoria Visits Him.

BREITENBURG, April 24.—A bulletin issued at 7:45 p. m. says the Emperor became feverish during the afternoon, but the fever abated somewhat toward evening and his general condition was comparatively satisfactory.

Dr. Mackenz has declared his intention of prosecuting the journals which have calumniated him.

Queen Victoria arrived at Charlottenburg at 9 o'clock this morning, and shortly afterward paid a visit to the Emperor at the castle. The doctors feared that the meeting would excite the Emperor and probably upset him, but their fears were groundless, as the Emperor seemed rather better after the interview and his temperature was normal.

The North German Gazette, referring to the visit of the Queen of England, says: "Her Majesty will be welcomed by the whole population of Germany, and above all by the inhabitants of Berlin, with veneration and sympathy so justly due one who has for many years ruled a friendly State and who is the mother of our Emperor. All German hearts will thankfully accept as a token of the Queen's deep sympathy for the fate of our reigning monarch the fact that she comes to the sick bed of our beloved Emperor and personally shares the deep affliction and great anxiety with which we are filled to-day. May she be enabled to bring comfort and hope, and when she departs from Germany, to take with her the assurance that she has displayed will always be kept in grateful remembrance here."

Queen Victoria and the Empress drove out this afternoon. They visited the dowager Empress Augusta and the Prince and Princess of Sax-Miningen. The streets were crowded and the Queen and Empress were greeted with enthusiasm. The Queen made three visits to the sick room of the Emperor, who is keeping his bed until he feels stronger. He has been in excellent spirits to-day, and had several refreshing naps. The meeting between Queen Victoria and her daughter, the Empress, this morning, was very touching. They embraced and kissed each other repeatedly. The Queen will leave to-morrow.

## A CHICO SCANDAL.

Arrest of a Woman for Threatening to Kill Her Husband.

CHICO, Cal., April 25.—About six weeks ago a gay and well-to-do old widower, named Thomas Trester, whose first wife had only been dead a little over three months, went to Marysville in company with a woman named Mollie Spofford, and they were married in that city. Trester is 72 years of age. After the wedding they returned to Chico to reside. He kept his bride well supplied with pin money and bedecked her with jewels, but she did not think he was giving her enough money, and made a terrific fuss about the matter.

They had a number of quarrels, and he told his bride that she must bribe her tongue. Then she told him she would shoot him and burn down the house.

This frightened the old man, and he had her arrested on a charge of threats against his life. Not being able to give bail she was lodged in the city prison yesterday.

She is a case-hardened character, having been sent to San Quentin from Red Bluff for a period of five years, for the crime of enticing young girls into houses of ill-fame for the purpose of prostitution.

It is believed that she has another husband living from whom she neglected to go through the formality of getting a divorce. If so she is guilty of bigamy and may have to answer for it.

Racy developments are expected to come up when the narrative of the six weeks' honeymoon of Thomas and Mollie is heard in Judge Bay's Court.

## TIERED OF THE WORLD.

A Young Man Sends a Bullet Through His Heart.

WHEATLAND, April 25.—Yesterday afternoon about 4:30 the body of C. E. Bevan of Nicolaus was discovered lying on the floor of his father's barn, with a bullet-hole in his left breast, dead.

The wound was evidently self-inflicted. A 44-calibre Smith & Wesson six-shooter, with one empty chamber, was found by his side. Death must have been instantaneous, as the features of the deceased were calm and placid.

He was about 31 years of age, married, was highly respected, and had resided here and in Nicolaus since a child.

On his person, besides the six-shooter, were found a large dirk-knife, a darringer and a couple of loud-ans.

As yet no cause has been developed for the rash act. The deceased was a brother of Deputy Sheriff Bevan, of this place.

## SLOGGER SULLIVAN.

Hearty Greetings to the Big Fellow by the Boston People.

BOSTON, April 25.—The steamer Catalina, loaded with John L. Sullivan, passed by Hull early this morning.

Mrs. Sullivan, the champion's legal wife, intends to set herself right before the world. She is endeavoring to secure a warrant for the big fellow's arrest immediately on his arrival on a charge of improper relations with Annie Livingston, with whom he has been traveling during the past two years and acknowledged as his wife.

On the arrival of the steamer, the pugilist was taken aboard a tug boat and brought to the city and was driven up town amid the cheers and salutations of the hundreds who had congregated on the wharf.

## SHORT OF FUNDS.

The Knights of Labor in Financial Straits.

PHILADELPHIA, April 25.—The need of ready money above current expenses, which are now paid with difficulty, is a source of great concern to the General Executive Board of the Knights of Labor. At a recent session of the Board \$10,000 was appropriated to start a printing office, but aside from the brownstone headquarters, worth \$50,000, the only available property is the Councilburg coal mine, in Ohio. The sale of this has been authorized.

ized and the Board expects to realize enough to get the printing office well under way and thereby lessen the enormous printing bill, which amounted to \$10,000 last year. The sale of the mine, however, will do but little to improve the condition of the finances. A member of the Board admits that there is barely enough money in the treasury to pay the current expenses and keep the machinery going until the payment of the July per capita tax. The quarterly returns are far from satisfactory, and unless money is received by the end of this date and July the force of the general offices will have to be further reduced.

The expenses of the order are now very heavy. During the year 1885-6, the Order gained nearly 60,000 members and the total expenses were \$105,786. Under the present administration, for 1886-7, the Order lost 217,000 members and the total expenses were \$491,883.

## A Menstruation Spoiled.

LOUISVILLE, Ky., April 25.—Henry and John Hill, bachelor farmers, lodged in jail at Jamestown, Kentucky, two weeks ago for the murder of two peddlers named Burton early in March, were brought to trial on Saturday. The principal witness against them was Mary Smith, their former servant. Her story was supported by the finding of the remains of two bodies in a cave near the Hill farmhouse. While she was telling on the stand how she had been compelled, on peril of her life, to cut the throats of the peddlers while they were asleep at her employers' house and catch their blood in a bucket, the Burtons walked into the courtroom. The case was at once discontinued and the Hills dismissed. The remains found upon close examination, were discovered to be a portion of the carcasses of two sheep.

## The Health of the Pope.

NEW YORK, April 25.—Bishop Ryan, Monsignor Quigley and Bishop Burke of Cheyenne, who were delegated to deliver President's Cleveland's congratulations and a copy of the Constitution of the United States to the Holy Father, returned here from Rome yesterday.

Bishop Ryan said to a reporter: "I wish you would correct the reports about the Pope's having fainted from exhaustion during the jubilee celebration, also that he is in very bad health, as they are entirely untrue. The Holy Father is feeble and very much emaciated, as is natural for a man of his advanced years, but he is wonderfully active and his faculties are perfectly clear."

## Governor Hill for Cleveland.

BOSTON, April 25.—A Washington dispatch to the Herald says: Col. J. B. Tomlinson, editor of the Omaha Democrat, has kept Governor David B. Hill's name at the head of his editorial column for some time as his candidate for the Presidency. Last night, having just returned from Albany, where he had a long conference with Governor Hill, he telegraphed his managing editor to take Hill's name down. The Governor told him, he says, that he was not only not a candidate, but that he would willingly head the New York delegation for Cleveland at St. Louis.

## An Important Arrest.

GRASS VALLEY, April 25.—A man giving the name of Armstrong was arrested at Nevada City yesterday, charged with larceny at Reno. Armstrong came here last Friday with two women. He was arrested for passing counterfeit money here, but was discharged. It is now thought that Armstrong and the women are those who left El Dorado when John Yule was first missed. An account says that a man and two women left there for Nevada State right after Yule was last seen. The women have gone to Sacramento.

The Fashionably Bred Standard Trotting Stallion

MAJESTY!

DESCRIPTION: Color, dark bay with one white hind foot;

15 1/2 hands high, weighs 1,050 pounds, fine form and action, very gentle

disposition, sound in every respect; two years old on the 8th of

May, 1888; well broken to drive; has never been trained.

PEDIGREE—Sire, "Sterling," by Egmont, he by Belmont sire

of Nutwood, Goldsmith Maid and other fast ones. Dam, Lady Baldwin,

by the Moor, dam of Bay Rose, 2:29.

This combination of two of the fastest strains of blood this country

has ever produced cannot fail to trot fast, and be one of the most

popular breeding stallions to be found. This colt has grown very

fast, and is large for his age, but well-proportioned and symmetrical,

and has not been worked for speed on account of his rapid growth.

He shows enough speed to warrant the belief that he will maintain

the high opinion we have of him. The first time he was shown at

the California State Fair he took the premium for the

Best Standard-Bred Trotting Colt

In the Sweepstakes. This colt is offered for the sum of \$600, which

is lower by 50 per cent. than any colt of equal breeding ever brought

that we know of.

## The Funeral of Mrs. Morrison.

To-day's Enterprise says: The remains of Mrs. Henry Morrison were followed to the grave yesterday afternoon by a large number of friends in carriages. According to her dying request, she was literally buried in a bed of flowers, made up in emblems, all denoting everlasting peace and rest in the realms of love. At the church services these emblems occupied conspicuous positions around the altar, where they were tastefully arranged by friends.

## Nevada Supreme Court.

The Supreme Court of Nevada was in session in Carson yesterday, and listened to arguments in two different cases on appeal. One of the cases was that of Silas Burbank vs. Frank Rivers of Smiths valley. W. E. F. Deal, representing Burbank, argued the case on its third and fourth appeal. The jury found in favor of the case have been lawing since 1886. Both are in good health.

## A TRUCKEE HEIRESS.

## A Character of the Mountain Town in Luck.

One of the most familiar characters in Truckee, says the *Republican*, is an old lady of some sixty or more years, who every day can be seen on the streets clad in garments rather faded by time, with a big sun bonnet on her head and a market basket on her arm. She isn't much on style and does not bang her hair or wear a bustle. Her name is Mrs. Adeline Thomas, or rather, is better known by the appellation of "old Mother Thomas." She lives in a time-discolored cabin in Brickell town, where her company is several dogs, a dozen cats, a number of canaries, and a lot of chickens. She sells dogs, birds, eggs and chickens and with an income derived from these and by washing towels for the saloons and the printing office, she maintains herself and asks the odds of no one.

No one, to see this specimen of 200 pounds of avoirdupois perambulating along the street, would ever suspect that she was the heiress of a valuable English estate and that the prospect for her early enjoyment of a goodly portion thereof is flattering. The estate, referred to is the "Hall estate," now in the English courts of chancery where it has been for a long number of years and is now about to be distributed to the heirs, most of whom are in this country. From Chadwick's *English Chancery* it is learned that Henry Hall died in 1797 leaving an estate valued at £750,000, and that his nearest heirs were the descendants of two brothers of his grandfather, one of whom, Daniel Hall, emigrated to this country in 1721. Mrs. Thomas is a direct descendant of this Daniel Hall, her grandfather, Haverhill Hall, being his grandson. Her portion of the estate is one-sixty-fourth which will amount to over \$50,000. This will be a welcome inheritance to the old lady and will serve to make her declining years smooth and pleasant. The property consists of real estate in London and as soon as it can be converted into cash, the estate will be distributed. In the meantime "Mother Thomas" will probably continue to sell eggs and wash towels and will not be stuck up any more than she has always been.

## GLENDALE GOSSIP.

A Budget of News from the Hamlet—Personal Gossip—Etc.

GLENDALE, April 23, 1888.

EDITOR GAZETTE:—The present warm wave is fast beautifying the "hamlet"; in fact Mrs. Nature has nearly finished her green summer garment and will soon charm the eye of the visiting dwellers of the hub with the verdure of her attire. All of the irrigating canals have been cleaned and repaired for use, and the meadows are brightening under the magic touch of the mountain-born flood of the Truckee, clearly indicating a bountiful hay supply. The garden brigade is in full working order and large quantities of "truck" will be raised along the river side.

The "punks" of the "grand old party" is quiescent at the "hamlet" in view of the near approach of the primaries, and "miserable" Dauby, of the Glendale Inn, is named as the warrior who is to back in the blaze of the council fire the "big talk." He is said to still favor the "unhoped knight" for the national tournament in November.

Mr. Charlie Derby paid a flying visit to the Glendale ranch preparatory to his departure for the broiling clime of Arizona. His brother, the cheerful Larry, is off for Humboldt, and Bob Williams, having been promoted to the rank of Major-domo, will conduct the affairs of the ranch during the summer.

The Pyramid visitors are giving the Pyramid visitors a rest and are troubling the turbid waters of the slough in quest of smaller fish. Road Supervisor William Frost has so far recovered the use of his arm as to complete the grading of the "south drive" in a shape which will render it a good drive during the next twenty or thirty years. If his system of thorough turning was adopted throughout the county, Washoe county could soon boast of its fine roads and her taxpayers be saved from the injudicious outlay on the highways.

Mrs. Colwell and Miss Mary Taylor of Reno are visiting at Hon. George Ait's of the "Hamlet."

## The McKanlass Troupe.

Of the above-named troupe, which will appear at the Nevada Theatre next Monday night, the Ottawa (Kan.) *Republican* has the following to say: "The McKanlass Specialty Company gave a very superior entertainment at the opera house last night. McKanlass is certainly a master of the banjo, and a superior artist on divers other instruments, and his performance thereon is something marvelous. In himself he is worth the price of admission. But he is supported by a company of other artists in specialties that kept the evening full of hilarity and genuine enjoyment. By all means go to-night."

## Return of an Old-Timer.

H. N. Conger, an old pioneer of this State, now a resident of Steptoe valley, passed through to Virginia City this morning. He has just returned from a year's travel in Europe, whither he went in search of health. His visit to Virginia will revive many recollections. It was the Conger building in the rear of the Bank of California that was so badly shattered by the dynamite explosion in 1873, when Van Bokelen was killed, through the supposed playful experiments of his pet monkey.

## A SENSATION.

## The Great Success of Dr. Prentice—His Work.

A case of wonderful and most remarkable character was reported at the London Clinic to-day, which was the cause of no little discussion among some of our leading specialists.

It also demonstrates the rapid advancement of the surgical department of the medical world. The case was reported by an American physician, who for the past few weeks has been assisting and operating here.

The case spoken of above is that of one Chat Roberts of Chat P. O., Lassen county, California, who for ten years had been growing deaf until the hearing in one ear was totally lost. It is said that Mr. Roberts consulted at different times with leading physicians, who told him nothing could be done to restore his hearing, as the natural passage leading from the throat to the inside of the ear had permanently and totally closed up by catarrhal inflammation.

This is the passage that the air passes through sometimes when we attempt to blow the nose but hold the nostrils closed and the ears fill with air, causing a puffy, dizzy feeling in the head. It is called the eustachian tube. It often becomes obstructed through catarrhal inflammation, but in the case of Chat Roberts the sides had entirely healed together so that all ordinary appliances were useless in endeavoring to force an opening that would be permanent.

Dr. Prentice hit upon the happy method of inserting a glistening silk worm gut, which, when forced into the opening reaching from the throat to the ear, was allowed to remain. Thus the sides of the newly made opening were prevented from reuniting until all inflammation passed away, after which the partially dissolved gut became absorbed, leaving a permanent and natural opening again.

Dr. Prentice's ingenious method is well thought of and is being tried with a marked show of success. Dr. Prentice is deserving of the highest encomiums for his intelligent and ingenious methods of research.

## A Success!!

After a prolonged European tour, on his return to Virginia City, Nev., Dr. Prentice was greeted by a large number of new patients, who crowded his parlors at the International Hotel to the condition of "standing room only."

Among this throng were many old patients who had called to express their gratitude for their successful issue from suffering of various ills and deformities that Dr. Prentice had cured them of during his visit last year. Among this number are many prominent citizens whose names we are not at liberty to mention. A large number of these cases had been badly cross-eyed. Dr. Prentice's treatment has proved eminently successful. Those who had been a sufferer from severe cases of catarrh, nervous diseases, hemorrhoids, etc., were loud in their praises of Dr. Prentice's successful treatment in their respective cases. Dr. Prentice's honesty in dealing with patients has made him many warm and lasting friends, as one of his cardinal principles is that if he thinks he cannot cure a case he always tells them so. Such dealings always merit confidence.
